Course Recommendations

Bliss Witch | MONEY is designed as a progressive journey; part one builds on part two and so on. For this reason, I feel that the course works most efficiently when you watch one video, then engage with the workbook material for that video. Each video corresponds to a section of the workbook, and the video and its corresponding workbook section share the same title. I encourage you to do *all of the exercises in a given workbook section* before you continue on with the next video as those exercises will likely be referenced in the video(s) proceeding it.

If you don't intend on doing things chronologically, I at least suggest that you *watch the videos first*. They provide the proper context for the exercises, and without them, you may be inclined to gloss over some of the content in the workbook.

If you find yourself stalling at a certain stage of the course because you're experiencing shadow triggers or the work it asks you to do doesn't seem to be something you're capable of right now, I'd encourage *you then and only then* to skip ahead in the course. I'd hate for you to miss out on some approaches, encouragement, and advice that would otherwise be helpful to you. By the time you get to the end of the course, you may even be motivated to return to where you skipped ahead and you may now be in the mindset you need to be in to tackle some of the tougher stuff.

Finally, if you found the Bliss Witch | MONEY E-Course useful, I would LOVE to hear from you! A testimonial from a Beauty like you is incredibly valuable and would help encourage others to take the same steps you have! If you'd like to reach out, you can contact me at jessi@jessihuntenburg.com.

So much love, and I hope you enjoy the course!
